

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### 5.1 Conclusion

Based on the findings of data, some conclusions the use of the types of address system in Gayonese *Lut* and *Deret* are staged as the following.

(1) There were found six types address system in Gayonese *Lut*, they are Title Only (T), Title plus last name (TLN), Special Nick Name/Pet Name (N/P), First Name (FN), Last Name (LN), Kinship Terms (K), and another finding Title plus First Name. In Gayonese *Deret*, there were four types address system namely Title Only (T), Special Nick Name/Pet Name (N/P), First Name (FN), Kinship Terms (K), and another finding Title plus First Name. Last Name and Title plus Last name was not found in Gayonese *Deret* because the society only use first name to address someone else and it has philosophical value. In another word, not all Wardhaugh's theory work in Gayonese *Deret*.

(2) There were six functions both in Gayonese *Lut* and *Deret*, they are; Attract people attention, Show intimacy, Show politeness, Show power differential, Reflect identity.

(3) The reason of using address system found in Gayonese *Lut* namely Particular Occasion, Social status, Gender, Age, Family Relationship, Occupational Hierarchy, Transactional Status, Degree of Intimacy, and Race. In Gayonese *Deret*, there were found eight reasons of people use address system, they are Particular Occasion, Social status, Gender, Age,

Family Relationship, Occupational Hierarchy, Transactional Status, and Degree of Intimacy, race was not found as the reason of using address system in Gayonese *Deret*.

## 5.2 Suggestion

In line with conclusions given, suggestions are staged as follows

- (1) Both Gayonese *Lut* and *Deret* should know the basic rules of the address system in their own ethnic, they should apply it in daily communication because it is the heritage from ancestor, both of them have their own philosophy value in using address system such as in using name, Gayo *Deret* people cannot use Last Name because basically it is not used as address system. If society does not know the basic of using address system, it can break the value of its address system of Gayonese *Lut* and *Deret* and it will make the address system dying or extinct.
- (2) Old generation should give the information about the original address system to young generation orally by using platform or socialization, especially the parents should teach their children to use address system in daily communication. It is to keep the heritage from ancestor because the first environment for children is Parents. Right now mostly young generation of Gayonese prefers to use modern address system rather than their own ethnic.
- (3) Teenagers and Other Researchers
  - (a) Teenagers should realize and be proud of their traditional address system and apply it in daily communication especially with family

members, using modern address system in daily communication can be a threat for traditional address system.

- (b) It should be done by other researchers to conduct other research in more sub regency.
