

ACKNOWLEDGEMENT

I express my highest gratitude to God Almighty who has given the grace and gifts so that I can complete this thesis well. The title of this thesis is Analysis of Student's High Order Thinking Skill and Scientific Attitude on General Biology Course in Mathematics and Natural Science Faculty of Medan State University. It was prepared to obtain a degree of Magister Pendidikan in Biology Education, Postgraduate Program, Medan State University.

In completing this thesis, the motivation, advice, and support for me is provided by a lot of people. I intended to express my gratitude and appreciation to all of them in this valuable chance. I would like to express my special thanks of gratitude to Mr. Prof. Dr. Herbert Sipahutar, M.Sc as the supervisor of thesis I and Mrs. Dr. Tumiur Gultom, M.P as the thesis supervisor II who have provided a lot of guidance and suggestions to me from the beginning of the proposal writing, research, until the completion of this thesis. I also presents my sincere appreciation to Mr. Prof. Dr. rer.nat. Binari Manurung, M.Si, Mr. Dr. Hasruddin, M.Pd and Mrs. Dr. Elly Djulia, M.Pd. as examiner I, II, and III who have provided informations and suggestions in improving this thesis.

I gratefully thank to Mr. Prof. Dr. Bornok Sinaga, M.Pd as the Director of the UNIMED Postgraduate Program, Mr. Dr. Ashar Hasairin, M.Si as the head of the Postgraduate Biology Education Study Program, and Mrs. Siti Rohana Siregar, M.Pd as the Biology Education Study Program Administration who never gets tired in helping and encouraging me. Thank you to all the lecturers of the Postgraduate Biology Education Study Program UNIMED.

In particular, I would like to give my special gratitude to my beloved parents, Mr. E. Pasaribu and Mrs. R. Tampubolon, and my sister Ms. Juniari Andina Pasaribu who have always provided support both morally and materially. I give appreciation sincerely to my friends, especially for the Postgraduate Biology Education 2017 class, who always encourage, remind, and fight together in the process of completing this final project.

I have made every effort to give the best in completing this thesis. Eventhough, I realizes that this thesis cannot be called perfect because there are still many shortcomings and weaknesses both in terms of content and writing grammar. It is due to the limitations of the my ability. For this reason, I expects suggestions and constructive criticism from the readers for the improvement of this thesis. I hope that the contents of this thesis can be useful in research in biology education and other fields, especially for the benefit of humankind.
