

ACKNOWLEDGEMENT

A major research project like this is never the work of anyone alone. but the support of many people. The contributions of many different people, in their different ways, have made this possible. I would like to extend my appreciation especially to the following.

Thank God for the wisdom and perseverance that he has been bestowed upon me during this research project, and indeed, throughout my life: "I can do everything through Him who gives me strength." (Philippians 4: 13).

First and foremost my first debt of gratitude must go to my first and second advisers, Prof. Amrin Saragih PhD, and Dr. Sri Minda Murni M.S, who have given your patience and immense knowledge, support, guidance, useful comments, advice throughout this research project. Both of you have been tremendous mentors for me. I would like to thank you for encouraging and allowing me to grow as a research scientist . Indeed, without your guidance, I would not be able to put the topic together. You have been strong and supportive advisors to me throughout my graduate school career, but you have always given me great freedom to pursue independent work. I attribute the level of my Masters degree to your encouragement and effort and without you this thesis, too, would not have been completed.

Special thanks to my committee, Prof. Dr. Busmin Gurning, M.Pd, Prof. Dr. Lince Sihombing, M.Pd and Dr. Syahron Lubis, M.A for your support, guidance and helpful suggestions. Your guidance have served me well and I owe you my heartfelt appreciation. I also want to thank you for letting my defense be an enjoyable moment, and for your brilliant comments and suggestions, thanks to you.

Special thanks also to all her graduate friends, and most importantly, I would like to thank my boyfriend, Subono Hutagalung who has given his support, encouragement, quiet patience and unwavering love and his invaluable assistance. Not forgetting to Mr.Farid Ma'ruf who has always been willing to make friendship and assistance has meant more to me than I could ever express.

Last but not least, the author wishes to express her love and gratitude to her beloved families, for their understanding and endless love, through the duration of her studies. Their love provided my inspiration and was my driving force. The writer owes them everything and wish the writer could show them just how much the writer loves and appreciates them.
