

## CHAPTER V

### CONCLUSIONS AND SUGGESTIONS

#### A. Conclusions

After the data of politeness strategy in requests had been analyzed, conclusion were described as follow.

The data found were 11 utterances of 6 speakers in Mangalehen Hata Sipaingot event of Mandailing Wedding Ceremony. And from that utterances, 21 requests were found throughout transcribing methods, and the results are Bald-on record 6 (28,4%), and Positive Politeness 15 (71,6%). Therefore each of requests filtered by using the collective method that from the six speakers which were analyzed one by one to gain the politeness strategy directly.

#### B. Suggestions

There are several suggestions that the writer could offer to reader towards politeness strategy learning, they were.

1. It is suggested to the next writer who want to make wider exploration on politeness strategy which was important on analyzing words that came up with the ownself conclusion in the beginning until the end of the study. It is also important that data of the next study could be convert into other sources of data, like movies, novel, drama, etc.
2. For anyone who read this study, especially student, it is suggested to increase and develope. Because there were still many aspects that can be studied about the characteristics of politeness. And for the

sustainability for this study, it was hoped that the other writers collect more articles, books, and journals about politeness strategy.
