

LIST OF TABLES

		<i>Page</i>
Table 1.1.	Mathematical higher-order thinking skills diagnostic test grid	2
Table 1.2.	Errors in student answer through the diagnostics test.....	3
Table 2.1.	Linking quality aspects and curriculum representations.....	24
Table 2.2.	Typology with six curriculum representations.....	21
Table 2.3.	Syntax of Problem Based Learning (PBL) lessons	24
Table 2.4.	Articulate storyline implementation planning.....	30
Table 3.1.	The grid of material validation test instrument.....	36
Table 3.2.	The grid of media validation test instrument	36
Table 3.3.	The grid of student's response instrument	37
Table 3.4.	The grid of teacher's response instrument	37
Table 3.5.	The grid of student's response instrument	37
Table 3.6.	The grid of instrument for Higher Order Thinking Skills test .	39
Table 3.7.	Scoring for validation instrument's answer (Sugiyono, 2013)	42
Table 3.8.	Scoring for practicality instrument's answer (Sugiyono, 2013)	43
Table 3.9.	Five-scale assessment conversion formula according to Sukardjo (2005)	43
Table 3.10.	Five-scale quantitative data conversion guidelines.....	44
Table 3.11.	The N-Gain criteria interpretation.....	45
Table 4.1.	Material validation result	53
Table 4.2.	Material revision result	54
Table 4.3.	Material validation result	54
Table 4.4.	Media revision result.....	55
Table 4.5.	HOTS test validation result.....	56
Table 4.6.	Student's response in the small group trial	57
Table 4.7.	Material revision result	58

Table 4.8.	Teacher’s response	58
Table 4.9.	Student’s response in the field trial	59
Table 4.10.	N-Gain result in the field trial	59
Table 4.11.	Auto-correction demonstrate by student’s answer	64
Table 4.12.	Auto-correction system effect through students’ understanding	65
