

ABSTRAK

Yosi Hasmita Simatupang, NIM : 7183344017, Pengaruh Model Pembelajaran *Problem Based Learning* Berbasis Media *Movie Learning* Terhadap Hasil Belajar Korespondensi Siswa Kelas X OTKP di SMK N 1 Siatas Barita Tarutung T.A 2021/2022.

Permasalahan dalam penelitian adalah rendahnya hasil belajar siswa pada mata pelajaran korespondensi. Penelitian ini bertujuan untuk mengetahui pengaruh model pembelajaran *problem based learning* berbasis media *movie learning* terhadap hasil belajar korespondensi. Penelitian ini merupakan penelitian eksperimen dimana yang melibatkan dua kelas yang diberi perlakuan berbeda yaitu kelas eksperimen dengan model pembelajaran *problem based learning* (PBL) berbasis media *movie learning* dan kelas kontrol dengan perlakuan menggunakan model pembelajaran *discovery learning*. Hasil penelitian menunjukkan bahwa hasil belajar yang diajarkan dengan model pembelajaran *Problem Based Learning* Berbasis Media *Movie Learning* lebih tinggi dibanding dengan hasil belajar menggunakan model *discovery learning*. Hasil Uji Statistik menunjukkan bahwa hasil belajar menggunakan model PBL berbasis media *movie learning* adalah *pre-test* sebesar 46,91, standar deviasi = 12,49 dan *post-test* sebesar 84,85, standar deviasi = 14,16 sedangkan hasil belajar siswa menggunakan model *discovery learning* adalah *pre-test* sebesar 41,71, Standar Deviasi = 11,81 dan *post-test* sebesar 70,93, Standar Deviasi = 18,46. Hasil pengujian hipotesis yang diperoleh $t_{hitung} > t_{tabel}$ yaitu $3,54 > 1,669$ pada taraf signifikansi 95% dan $\alpha = 0,05$. Maka peneliti dapat menarik kesimpulan bahwa ada pengaruh positif dan signifikan penggunaan model pembelajaran PBL berbasis media *movie learning* terhadap hasil belajar korespondensi siswa kelas X OTKP di SMK N 1 Siatas Barita Tarutung T.A 2021/2022.

Kata kunci : Model Pembelajaran PBL Berbasis Media *Movie Learning*, Model *Discovery Learning*, Hasil Belajar.

ABSTRACT

Yosi Hasmita Simatupang, NIM : 7183344017, The effect of Problem Based Learning Model Based on Movie Learning Media on Correspondence Learning Outcomes of Class X OTKP Students at SMK N 1 Siatas Barita Tarutung T.A 2021/2022.

The problem in this research is the low student learning outcomes in correspondence subjects. This study aims to determine the effect of the problem-based learning model based on movie learning media on the correspondence learning outcomes. This research is experimental research that involves two classes that are given a different treatment, namely the experimental class with problem-based learning (PBL) learning model based on movie learning media and the control class with treatment using discovery learning media. The results showed that the learning outcomes taught using the Problem Based Learning model based on the Movie Learning media were higher than those taught using the discovery learning model. Statistical test results show that learning outcomes using the PBL model based on movie learning media are pre-test of 46.91, standard deviation = 12.49 and post-test of 84.85, standard deviation = 14.16 while student learning outcomes using the model discovery learning is a pre-test of 41.71, Standard Deviation = 11.81 and post-test of 70.93, Standard Deviation = 18.46. The results of hypothesis testing obtained $t_{\text{count}} > t_{\text{(table)}}$ are $3.54 > 1.669$ at the 95% significance level and $= 0.05$. So the researcher can conclude that there is a positive and significant effect of using the PBL learning model based on movie learning media on the correspondence learning outcomes of class X OTKP students at SMK N 1 Siatas Barita Tarutung T.A 2021/2022.
