

## CHAPTER V CONCLUSION AND SUGGESTION

### 5.1 Conclusion

Based on the result of research, there are some conclusions :

1. Teaching ecosystem topic using power point media did not affect students learning outcome.

### 5.2 Suggestion

Power media a lowe is not suggestion :

1. To improve students learning outcome in ecosystem topic. However the use of power point media in conjunction with other media on teaching technique probibility will effect student learning outcome. Thus, for future research it is suggestion that the use of power point media should be in coperated with other media or teaching method.
