

ABSTRAK

BOBY JUDA ADITYA UTAMA PANGGABEAN, Pengembangan *Booklet* Andaliman (*Zanthoxylum acanthopodium* DC.) Sebagai Sumber Belajar Bagi Masyarakat Danau Toba Sumatera Utara , Program Pascasarjana Universitas Negeri Medan, Juni 2022.

Masyarakat Mengetahui hasil analisis kebutuhan di sekitar kawasan Danau toba dan Sumatera Utara sehubungan dengan kebutuhan akan pembuatan *Booklet* sebagai sarana pembelajaran mata pelajaran tersebut Tanaman Andaliman Mengetahui kelayakan isi dan penyajian buku *Booklet* Tanaman Andaliman sebagai sumber belajar Masyarakat sekitar Danau Toba dan Sumatera Utara. Untuk mengetahui reaksi pembaca terhadap *Booklet* tanaman Andaliman sebagai sumber belajar Masyarakat di sekitar kawasan Danau Toba, Sumatera Utara. Metode Penelitian Pengembangan (R dan D). Hasil Penelitian lapangan digunakan untuk mengembangkan produk buku. Model Pengembangan yang digunakan dalam Penelitian ini adalah Model pengembangan Thiagarajan (4D) yang terdiri dari tahapan (defenition, design, developepment, deployment. Hasil Validasi *Booklet* oleh Validator ahli materi, nilai rata-rata 82,50%, tergolong kategori layak. Demikian juga aspek kegrafikan buku divalidasi oleh Ahli Desain tata letak dan memperoleh skor rata-rata 93,75%, tergolong dalam kategori layak. Hasil uji coba terbatas buku kepada 20 masyarakat umum diperoleh skor rata-rata 66%, tergolong kategori cukup baik.

Kata kunci : Pengembangan, *Booklet*, Andalimar, Sumber Belajar

ABSTRACT

BOBY JUDA ADITYA UTAMA PANGGABEAN, Development of the Andaliman *Booklet* (*Zanthoxylum acanthopodium* DC.) As learning Resource for the Lake Toba Community, North Sumatera, Posgraduate Program, Medan State University, June 2022.

Communities Know the results of the needs analysis around the Lake Toba area and North Sumatera in Connection with the need for making Booklet as a learning tool for the subjects Andaliman Plants Knowing the feasibility of the content and presentation of the Andaliman Plants Booklet as learning resource for communities around Lake Toba and North Sumatera. The find out readers, reactionsto the Andaliman Booklet as a learning resource for the Community around the Lake Toba area, North Sumatera This type of research is development research (R and D). Field research result are used to develop book products. The development model used in this study is the Thiagarajan (4D) development model which consists of stage (defenition, design, development, deployment). Result of *Booklet* Validation by material validator expert, average score of 82,50%, classified as feasible. Likewise the graphical aspect of the book was validated by the Layout design expert and the average score was93,75%, belonging to the decent category. The results of a limited trial of books to 20 general public obtained an average score of 66%, belonging to the fairly good category
