

FOREWORD

Praise and gratitude writer prayed to Allah, God Almighty, for all the blessings and His blessing that provide health and opportunity to the author so that the study can be completed well in accordance with the planned time.

Thesis entitled "Comparison between Students with Learning Outcomes Taught Using Problem Based Learning Cooperative Demonstration Experiment and Methods on Thermochemistry", arranged to obtain a Sarjana Pendidikan in Chemistry, Faculty of Mathematics and Natural Sciences, State University Of Medan.

In this moment I would like to thank: Dr. Wesly Hutabarat, M.Sc, as thesis supervisor who has provided guidance and advice to the author since the beginning of the study until the completion of this thesis. Thanks also to Mr. Prof. Dr. Albinus Silalahi, M.S, Drs. Eddyanto, Ph.D, and Mrs. Dr. Iis Siti Jahro, M.Si, which has provided input and suggestions from the research plan to complete the preparation of this thesis. Great thanks delivered to Dra. Ani Sutiani., M.Si as the Academic Supervisor who has provided motivation to the author and to all Mr. and Mrs. Lecturer along with staff Employee Department of Chemistry UNIMED which also plays a role in the settlement process of research and writing of this. A big thank you to the school teachers who have educated writer so I can earn a college degree. Thank to principal, vice-principals, chemistry teacher and students grade XI Science Ikhwan and XI Science Akhwat SMAIT AL-FITYAN field who have helped me during the research process progresses.

In particular I would like to thank my parents as well as a motivator and an inspiration in my life, which fought hard in educating and educating me with all toil stream of sweat that never you showed in the eyes of the author, only the author replied with a small smile beautiful when your child can be a degree. All of this is immortal author offerings for both parents father and mother beloved author. Thank Brother Khairussaid alfathani harahap, S.Pd, Khairussaid al-amani fauzi harahap, S.Pd, brother Safrina Harahap, AmKeb, Wardiatul fitriani harahap,

AmKeb, and adinda Siti Rahmah alkhairani harahap which always provide motivation, good support moral and material to the author at the time of study and preparation of the thesis.

Especially also to my friends who are on PERMATA (Eza Boediono, Ridwansyah Sihombing, Mahfuzi Irwan, Agus Salim Daulay, Birro Abawayya, Atika, Aji, Nur Ajjah, Herwin Hidayat, Ali Imran, Aidil, Miya, Sutan, Yolanda, Maulana Ayu, Syafira and Riza), KAMMI (Randy, Fajar, Muhammar, Zaidan, Sha'ban, Tika, Sabda, Siti Rahmadani, Sri Ayuni, Widya Wulandari, Uci Wulandari, Liya Yohana and others), FORSIMKA (Khairul, Nur Ilman, April and Qadafi). Friends PPLT SMAN 1 Tebingtinggi. Not forget to classmates bilingual chemistry in 2011.

The author has attempted the maximum extent possible in the completion of this thesis, but the authors recognize there are still many weaknesses in terms of both content and grammar, to the author of any suggestions and constructive criticism from readers for the perfection of this thesis. Presumably the contents of this paper can be useful to enrich science education.

Medan, December 2015

Author,

Baharuddin Y Habiby Hrp
