Article: The effect of sodium fluoride in lithium fluorophosphate (LFP) glasses doped with Nd<sub>2</sub>O<sub>3</sub> ion

Journal: *Integrated Ferroelectrics* GINF

Article ID: GINF 2035600

Dear Juniar Hutahaeen,

We are delighted that you have chosen to publish your article in *Integrated Ferroelectrics*. I will be your Production Editor and will work with you to oversee the production of your article through to publication. My contact details are given at the end of this email.

- Please log in to CATS to complete your Author Publishing Agreement. Your user name and password are given below. If you have any questions on the process of completing your agreement, please contact me.

Proofs will be ready for you to check in approximately 8 working days and we would like you to return your corrections within 3 days. Please let me know if there will be any difficulty in meeting this schedule.

We will be sending proofs to you through our workflow system, CATS (Central Article Tracking System).

- You can check the status of your paper online through the CATS system at: <https://cats.informa.com/PTS/in?ut=820DC75783014A7BA2A4ACB90663131B>

- Your User Name is: hutahaj

- Your Password is: Huta9367\$\$ (You will be required to change this first time you log in)

### Open Access

Our Open Select option allows you to publish this article open access. When you complete your Author Publishing Agreement you will also be asked whether you wish to make your article open access. Publishing open access allows you to:

- **Boost your reach**

Articles published Open Select with Taylor & Francis typically receive 32% more citations\* and over 6 times as many downloads\*\* compared to those that are not.

- **Comply with your research funder**

Some funders mandate open access publishing and your research funder or institution may be able to cover the cost of the article publishing charge (APC).

- **Retain copyright**

Your article will be published with a Creative Commons (CC) license which means that you retain copyright for your work and can control how it's reused by others.

[Find out more about publishing your article open access.](#)

\*Citations received up to Jan 31st 2020 for articles published in 2015-2019 in journals listed in Web of Science®.

\*\*Usage in 2017-2019 for articles published in 2015-2019.

• The DOI of your paper is: 10.1080/10584587.2022.2035600. Once your article has published online, it will be available at the following permanent link: <https://doi.org/10.1080/10584587.2022.2035600> .

Yours sincerely,

Jen C McCleary

Kepada: junhut@gmail.com

10 Feb 2022

Proofs of your article(s) listed below are now available for review through the Central Article Tracking System (CATS) website:

- Journal: GINF: *Integrated Ferroelectrics*
- Manuscript ID: 2035600
- Manuscript Title: The effect of sodium fluoride in lithium fluorophosphate (LFP) glasses doped with Nd<sub>2</sub>O<sub>3</sub> ion
- By: Hutahaeen; Rajagukguk; Rajagukguk; Sarumaha; Wantana; Kaewkhao

Please approve these proofs, or return any corrections by 15 Feb 2022. Failure to do so may result in delay of your publication, reallocation to a later issue, or review and approval of your article by the journal's Editor-in-Chief.

- Please follow the link below to view the manuscript through the CATS system. <https://cats.informa.com/PTS/in?ut=820DC75783014A7BA2A4ACB90663131B>

- Your User Name is: HUTAHAJ

- If you do not know your password, you may reset it here: <http://cats.informa.com/PTS/forgottenPassword.do>

Once logged into CATS you will be able to view the 'My Manuscripts' page with the article(s) currently in production where you are listed as an author. Clicking on 'Review Proofs' will allow you to access your article. Please use the web form (if the corrections are fewer than 50 in number) to return any corrections to me. Instructions on how to use the web form can be found by clicking on the 'Proofing Guidelines for Authors' link located at the bottom of the window in which your proofs appear. Alternatively, send your corrections in an email to me or you can print the article and fax or post it to the address listed below.

PLEASE NOTE: The CATS system only supports Internet Explorer 6 (and later), or Firefox 3 (and later) browser software. Popup blockers should be disabled. If you have any difficulty using CATS, please contact me.

Thank you,

Jen C McCleary

The online platform for Taylor & Francis Group content

[Author Services](#) | [FAQ](#) | [Twitter](#) | [Facebook](#) | [LinkedIn](#)

Dear Juniar Hutahaean,

Your article, [The Effect of Sodium Fluoride in Lithium Fluorophosphate \(LFP\) Glasses Doped with Nd<sub>2</sub>O<sub>3</sub> Ion](#), published in *Integrated Ferroelectrics*, [Volume 224 Issue 1](#), is now available for you to access via [tandfonline.com](https://tandfonline.com).

You will have permanent, free access to the final published version of your article via your [Authored Works](#), our dedicated center for all Taylor & Francis authors. This is where you can view all articles published in our journals, check how many people have viewed them, see their citations, and check your Altmetric data. Haven't registered for your Authored Works yet? [Find out how](#).

**Have you used your free eprints yet?**

Now you're published, you'll hopefully want to share your article with friends or colleagues. Every author at Taylor & Francis (including all co-authors) gets 50 free online copies of their article to share with their networks. Your eprint link is now ready to use and is:

<https://www.tandfonline.com/eprint/HDF4NZG6DHTA4MKR4TJS/full?target=10.1080/10584587.2022.2035600>

You can share this any way you want, and author feedback tells us this is a highly effective way of highlighting your research. Using this link also means we can track your article's downloads and citations, so you can measure its impact. Find out more about [sharing your work](#), and how you can work with us to [highlight your article](#).

If you have any problems accessing your Taylor & Francis Online account, or using your eprints, please [contact us](#).

Kind regards,

Stewart Gardiner  
Global Production Director, Journals  
Taylor & Francis Group

## Taylor & Francis Author Survey

1 pesan

---

**cats@taylorandfrancis.com** <cats@taylorandfrancis.com>

23 April 2022 pukul 12.27

Balas Ke: cats@taylorandfrancis.com

Kepada: junhut@gmail.com

Dear Juniar Hutahaeen,

Your article '*The effect of sodium fluoride in lithium fluorophosphate (LFP) glasses doped with Nd<sub>2</sub>O<sub>3</sub> ion*' has recently been published online in *Integrated Ferroelectrics*.

We would be very grateful if you could answer our feedback survey, which we use to monitor and improve services to authors. The questionnaire should take about 10–15 minutes to complete.

[Click here to take the survey](#)

Even if you have completed the survey recently for a *different* article we would be grateful if you could answer it again for the article above as we believe that each experience can be different.

If you have an issue that requires immediate attention please do complete the survey but also email your production editor or contact us at <https://authorservices.taylorandfrancis.com/contact/>. This will ensure that we are alerted to your problem straight away.

Now your article has been published, you might like to visit the [Ensuring your research makes an impact](#) page on the Taylor & Francis Author Services website to learn how you can increase your article's readership.

Many thanks in advance for taking the time to complete this survey.

Kind regards,

Anna Gilbert, Research Manager  
Taylor & Francis Group
