Paper: «Mechanical Characterization Of Composites Reinforced By Corn Husk Fiber (*Zea mays*) Waste and Coffee Husk Fiber (*Coffea arabica L*)»
Journal: «Materials Science Forum»

Dear Nurfajriani,

We are very pleased to announce that shortly your paper «Mechanical Characterization Of Composites Reinforced By Corn Husk Fiber (*Zea mays*) Waste and Coffee Husk Fiber (*Coffea arabica L*)» will be **published** online in Journal «Materials Science Forum Vol. 1080».

In your [scientific.net](#) account, you can view the PDF version for your personal use only.

Your login credentials are:
Login: nurfajriani@unimed.ac.id
Password: hqaCT792
Please, go to the upper left corner and choose **Published Papers**.

In your author account, you will find information about additional opportunities such as OPEN ACCESS and OFFPRINTS.

Paper: «Mechanical Characterization Of Composites Reinforced By Corn Husk Fiber (*Zea mays*) Waste and Coffee Husk Fiber (*Coffea arabica L*)»
Journal: «Materials Science Forum»
Book: «Functional Composites, Ceramics and Glasses»

Dear Nurfajiani,

We would like to thank you for your efforts to help produce this new journal volume, which contains your paper «Mechanical Characterization Of Composites Reinforced By Corn Husk Fiber (*Zea mays*) Waste and Coffee Husk Fiber (*Coffea arabica L*)» and can now be found online. The Journal volume will also appear as a book with an ISBN:

[Materials Science Forum Vol. 1080](#)
[Functional Composites, Ceramics and Glasses](#)

We would appreciate it if you share this mail with your colleagues who might be interested in this field of research and or with your information manager or librarian.

Paper: «Mechanical Characterization Of Composites Reinforced By Corn Husk Fiber (*Zea mays*) Waste and Coffee Husk Fiber (*Coffea arabica L*)»
Book: «Functional Composites, Ceramics and Glasses»

Dear Nurfaiziani,

We would like to thank you for choosing **Trans Tech Publications Ltd** as a publisher of your paper **Mechanical Characterization Of Composites Reinforced By Corn Husk Fiber (*Zea mays*) Waste and Coffee Husk Fiber (*Coffea arabica L*)** in the journal **Materials Science Forum Vol. 1080**, which also appeared as a book. We trust the book will reach out to the readership we all have in mind.

We believe it is our mutual interest to attract as many readers as possible to see the results of your work. From that perspective, your help would be very much appreciated. We believe your organization has already subscribed to our journal, but in case it is not, we would appreciate your recommendation.

Also, if you are a member of a scientific society, we would like to propose our publishing program to your society as we think they might be interested in your work and in the works of others publishing in the same or associated disciplines. Please, write a short note to sue.kristin@scientific.net, so that we can discuss further details.

We would like to draw your attention to the **PDF flyer of TIP journals**, which can be downloaded [here](#). You are welcome to use it to inform any of your peers or send it to your library staff.
