

PREFACE

Praise and gratitude the author would like to say to God Almighty for all the gifts that have been given to the author so that the author can complete this thesis properly.

The thesis entitled "Analysis of Creative Thinking Ability of Junior High School Students in Natural Science Learning on Life Organization Systems Materials", was prepared as one of the requirements for obtaining a Bachelor's degree in Science Education, Faculty of Mathematics and Natural Sciences, State University of Medan.

This thesis could not be separated from the help of various parties, so that on this occasion the author with all humility and respect expresses his gratitude to Mrs. Dr. Ely Djulia, M.Pd. as a Thesis Advisor who has provided guidance and advice to the author since the beginning of the submission of the title of the proposal until the completion of this thesis. I also express my gratitude to Prof. Dr. rer. nat. Binary Manurung, M.Sc., Mr. Dr. Idramsa, M.Si. and Mrs. Lastama Sinaga, S.Pd., M.Ed. as the Examining Lecturer who has provided many inputs and suggestions from the research plan to the completion of the preparation of this thesis.

Thanks are also conveyed to Mrs. Dr. Mariati Purnama Simanjuntak, S.Pd., M.Si as Academic Advisor who has provided a lot of guidance and advice as well as motivation during my education at the State University of Medan. Then thank you to the Head of the Biology Department, Dr. Hasruddin, M.Pd, Mrs. Endang Sulistyarini Gultom, S.Si as Secretary of the Department and to Mrs. Wina Dyah Puspita Sari, M.Sc. as Chair of the Science Education Study Program and to Mr. and Mrs. Staff of the Department of Biology, Faculty of Mathematics and Natural Sciences, UNIMED who have helped the author.

Thanks are also conveyed to the principals of SMPN 27 Medan, Mrs. Sawalina and Mrs. Siti Sundari S.Pd. as a teacher in the field of science studies and all teachers at SMPN 27 Medan who have provided opportunities and convenience to the author while conducting research at school.

In particular, the author would like to thank my dear and beloved parents, Serni Lukertina Situmorang and Jhonson Edward Simanjuntak, who have raised, educated,

supported, motivated, always prayed for and sacrifices that the author could not repay so that she could complete this thesis. The authors also thank my beloved brother Peter Jaya Negara Simanjuntak, S.Si and my dear sister Prestine Cassia Negara Simanjuntak and also my dear friend Reinhard Hutagaol who has always been there to provide support and love to the author so that the author is enthusiastic in completing this thesis.

The author also does not forget to express his gratitude to his dear and beloved friends of the Tetrani Squad who have always accompanied him from the beginning to study at the State University of Medan, Angel Geofany Sihite and Umi Lestari along with the beloved Orang Sukses 2.0 Squad, Sarah, Jogi, Henry, and Bastian who has always helped and accompanied the writer until now and also the dearest Abnormal Squad, Godeliva, Christian Lolo, and Yoel who have always been a place for venting and who always gave encouragement to the writer. And the whole big family of

Bilingual Science Education 2018 who have accompanied the author during the learning process at Medan State University and many parties that the author cannot mention one by one, the authors say thousands of thanks.

The author has made every effort to complete this thesis, but the author realizes that there are still many weaknesses, both in terms of content and grammar, for that the author expects constructive criticism and suggestions from readers for the perfection of this thesis. Hopefully this thesis is useful in enriching knowledge in education.

Medan, May 2022

Author,

Pertiwi Restu Negara Simanjuntak
