

PREFACE

Praise and gratitude the author prayed to God for all His grace so that this thesis can be completed well. This thesis entitles “The Development of E-Module Based on Android to Train Student’s Science Literacy in Impulse and Momentum Material Grade X SMA Negeri 2 Binjai” was prepared to acquire Sarjana Pendidikan (S1) in Physics Education Study Program, Faculty of Mathematics and Natural Science, Universitas Negeri Medan.

The author realized that without the help and guidance of various parties from the lecture period to the process of preparing this thesis, it was very difficult for me to complete this thesis. Therefore, in this occasion the author would like to say thank to the Chancellor of the Universitas Negeri Medan, Mr. Dr. Syamsul Gultom, S.KM, M.Kes., Mrs. Prof. Dr. Fauziah Harahap, M.Si. as the Dean of FMIPA. Mrs. Dr. Dewi Wulandari, M.Si. as the head of Physics Department. Mrs. Dr. Yuni Warty, M.Si as the Secretary of Physics Department. Dr. Wawan Bunawan, M.Pd., M.Si. as former Head of Physics Department and Mr. Sabani, M.Si. as former Secretary of Physics Department

The author would like to say thank to Mrs. Dr Dewi Wulandari, M.Si. as my thesis supervisor that who has given provided guidance, advice, motivation, and suggestions to author from the beginning until the completion of this thesis. The author also would like to thanks to Mr. Prof. Dr. Nurdin Bukit, M.Si., Mr. Dr. Alkhafi Maas Siregar, M.Si., and Mr. Sabani, M.Si. as my examiners who have provided constructive input, the right way of thinking, and suggestions in improving the writing of this thesis. And also the author like to say thank to Mr. Drs. Juru Bahasa Sinuraya M.Pd. as my academic supervisor who has provided advice and motivation began to receive authors in this Physics Department.

The author also would like to say thank to Mr. Drs. Juniar Hutahaean, M.Si., and Mr. Abdul Rais, M.T., M.Si. as my media and material expert who has provided advice and Mrs. Dr. Ely Djulia, M.Pd. as coordinator of Bilingual class and Mrs. Dr. Techn Marini Damanik, S.Si., M.Si as secretary of Bilingual class who gave support during my study in Bilingual Class.

The author also would like to say thank to Mr. M. Yus Efendi, M.Pd. as Principal of SMA Negeri 2 Binjai, Mr. Alwi Afandi Harahap, M.Si. as a teacher who provides information and advice to us and especially to Fretty Doharni Ritonga, M.Pd. as the physics teacher who helped and guided the author in conducted research at SMA Negeri 2 Binjai, and also to all of the students of XI IPA 4 SMA Negeri 2 Binjai as my research sample who gave the chance to do this research.

In particular, the author would like to express the deepest gratitude to the people whom author really loves about especialy to my father Mr. Surbakti and my

mother Mrs. Simanungkalit, my sisters Ms. Hotmeri Marta Frida Damanik and Ms. Destra Mika Novta Sari Damanik who always provide support in terms of material, motivation, advice and especially for prayer and affection so that the author can complete study at Universitas Negeri Medan.

The author also would like to thank to my best friend since we are in senior high school, Jejes, Rica, Suprat, and Todo as Kaum Tuna Asmara group, before Guling Khas Binjai, as my support system and always listening to my pointless lifes drama over and over again and strengthen me always. To Ria Marpaung who always together when we become a substitute teacher, research, until the completion of this thesis. And also to Bilphy18 class or gen celup that transformed to gen remember Garcen, Jeha, Kai, Ainal, and Berto who gave me support for 4 years in the campus and helped me, especially to Merlion Group Rei, Yosi, Luni, Lasmon, Octa, Nur dan Patri for always be there for me and giving me unconditional love.

Thank you also to the organization Persmakreatif, that taught me things I didn't know especially in technology, especially to my Telegram Intel Group, Ocha and Khusnul that always easy to get out for the way and unwind, and also to bang Tomy, bang Eko, bang Amin and bang Calvin and all crew who keeps me from getting bored in secretariat. Thanks to Maitreyawira Deli Serdang School especially Miss Avolen Siahaan which gave the author the opportunity to learn and teach when author had to compile thesis.

Last but not least, I Wanna Thank Me, I wanna thank me for believing in me, I wanna thank me for doing all this hard work, I wanna thank me for having no days off, I wanna thank me for never quitting. I wanna thank me for being me at all times.

Finally, the author hopes that God will reward all kindness of all those who have helped. Hopefully this thesis can be useful for readers and bring benefits to the development of science
