

ABSTRAK

Alhafizhul Iman Nurrobi, NIM 5171122002 (2023). Hubungan Antara Keaktifan Guru Pembimbing Dan Instruktur Di Industri Dengan Hasil Praktik Industri Siswa Kelas XII Teknik Kendaraan Ringan SMK N Air Putih T.A 2021/2022. Skripsi. Fakultas Teknik, Universitas Negeri Medan. 2023.

Penelitian ini bertujuan untuk mengetahui hubungan variabel keaktifan guru pembimbing, keaktifan instruktur industri dengan hasil praktik industri siswa kelas XII Teknik Kendaraan Ringan SMK N Air Putih Batubara T.A 2021/2022. Prosedur penelitian ini menggunakan langkah-langkah sebagai berikut: (a) Mengurus surat izin penelitian, (b) Meninjau lokasi penelitian, (c) Menyusun angket, (d) Menguji cobakan angket penelitian. Teknik analisis data dilakukan dengan menggunakan teknik analisis deskriptif kuantitatif, yaitu dengan menganalisis data kuantitatif yang diperoleh dari angket dan hasil praktik industri siswa. Jenis penelitian ini merupakan penelitian kuantitatif. Sampel yang digunakan dalam penelitian ini merupakan siswa kelas XII Teknik Kendaraan Ringan SMK Negeri Air Putih sebanyak 30 orang dengan menggunakan teknik acak (*random sampling*). Dari hasil penelitian ini diperoleh besarnya koefisien korelasi yaitu $r_{hitung} = 0,6382$ dengan $r_{tabel} = 0,361$ ($r_{hitung} > r_{tabel}$), nilai $f_{hitung} (9,2761) > f_{tabel} (3,3541)$ dan nilai $t_{hitung} (5,6973) > t_{tabel} (2,0573)$. Hasil penelitian menunjukkan terdapat hubungan yang positif dan signifikan antara keaktifan guru pembimbing dan instruktur industri dengan hasil praktik industri siswa kelas XII Teknik Kendaraan Ringan SMK Negeri Air Putih T.A 2021/2022.

Kata kunci : Hubungan, Keaktifan Guru Pembimbing, Hasil Praktik Industri

ABSTRACT

Alhafizhul Iman Nurrobi, NIM 5171122002 (2023). *The Relationship Between The Activeness Of Supervisors And Instructors In Industry And The Results Of Industrial Practices Of Class XII Students Of Light Vehicle Engineering SMK N Air Putih T.A 2021/2022*. Thesis. Faculty of Engineering, Medan State University. 2023.

This study aims to determine the relationship between the variables of the activeness of supervising teachers, the activity of industrial instructors and the results of industrial practice of class XII students of Light Vehicle Engineering SMK N Air Putih Batubara T.A 2021/2022. The research procedure used the following steps: (a) Obtaining a research permit, (b) Observing the research location, (c) Compiling a questionnaire, (d) Testing the research questionnaire. Data analysis techniques were carried out using quantitative descriptive analysis techniques, namely by analyzing the quantitative data obtained from questionnaires and the results of student industrial practice. This type of research is a quantitative research. The sample used in this study was 30 students of class XII Light Vehicle Engineering at Air Putih State Vocational School using random sampling. From the results of this study, it was obtained that the correlation coefficient was $r_{\text{count}} = 0.6382$ with $r_{\text{table}} = 0.361$ ($r_{\text{count}} > r_{\text{table}}$), $f_{\text{count}} (9.2761) > f_{\text{table}} (3.3541)$ and $t_{\text{count}} (5.6973) > t_{\text{table}} (2) .0573$). The results of the study showed that there was a positive and significant relationship between the activity of supervising teachers and industrial instructors with the results of industrial practice of class XII students of Light Vehicle Engineering SMK Negeri Air Putih T.A 2021/2022.

Keywords : Relationships, Active Teacher Supervisors, Results of Industrial Practices
