Department of Accounting, Accounting Study Program, Faculty of Economics, Medan State University , 2023.

The research problem is whether debt covenants (X_1), Investment opportunity set (X_2), managerial ownership (X_3), and operating cash flow (X_4) have an effect on accounting conservatism (Y). The purpose of this study is to examine the effect of debt covenants, investment opportunity sets, managerial ownership, and operating cash flow on accounting conservatism.

The population of this research is 178 companies in the consumer goods industry sector which are listed on the IDX for the 2019-2021 period. The sampling method used a purposive sampling method, obtained 60 sample companies for 3 years of observation with observation, obtained from audited annual reports, samples taken from the website www.idx.co.id. Data analysis techniques used descriptive statistics and Logistic Regression Analysis with the SPSS 25 test tool.

The results of the study partially stated that X_1 , X_2 , X_4 had an effect on accounting conservatism Y . Simultaneously X_1 , X_2 , X_3 and X_4 had an effect on accounting conservatism.

The conclusion of this study is that partially X_1 , X_2 , X_4 have an effect on conservatism because the principles of managerial ownership are very unrelated to accounting conservatism in the 2019-2021 period.

Keywords: Debt Covenant, Investment Opportunity Set, Managerial Ownership, Operating Cash Flow, Accounting Conservatism.
