CHAPTER V
CONCLUSION AND SUGGESTION

5.1. Conclusion

This research obtained and analyzed qualitative data from a variety of sources 2 participants of English teachers of SMA Negeri 3 Binjai. Based on the outcome of the test study, It is possible to deduce that; There are some positive and negative challenges found in online teaching and learning such as technical, pedagogical and professional challenges.

There are some opportunities found in online English teaching such as Opportunity of Improving Digital Literacy of Teachers, Opportunity of Training for Teachers and Opportunity of Self Development of Teachers. For example, In this scenario, using a Google form for an online assessment has various advantages. One of them is that as soon as pupils complete the test, the results are automatically recorded.

5.2. Suggestion

Based on the result of the study, the following are some suggestions for reaching better online English teaching by the teachers :

1. It is suggested to the management of SMA Negeri 3 Binjai to pay more attention to the factors of influencing the success in online English teaching particularly in covid-19 pandemic such as technical and pedagogical challenges.

2. It is suggested to the teachers of English of SMA Negeri 3 Binjai to more improve their individual literacy of Google Classroom, Evaluation and Collection of the Homework and professional development.

3. It is suggested to the students of SMA Negeri 3 Binjai to continuously improve their preparation to follow the online English teaching

4. It is suggested to the next researchers to make a larger scale of study to get a better result of the study related to online English teaching.
