

ABSTRACT

Desfita, Siska, Registration Number 2191121007, Developing Recount Text Teaching Material based on Literacy and Numeracy at SMKN 1 Beringin, A Thesis, Educational Program, State University of Medan,, 2023.

This research aims to develop teaching material based on literacy and numeracy. The research was conducted based on educational research and development (R&D) from Borg and Gall's (2003) theory consisting; of gathering information and data, analyzing the data, designing the product, validating the product, revising, and final product. The data was taken from observing the syllabus and the existing material used by the teacher, distributing a questionnaire for 32 students of SMKN 1 Beringin, a questionnaire for the validator, and interviewing one English Teacher. The product of this study is a set of writing materials entitled "The Rise Experience Tourism" that consists of 2 units. The materials for each unit were designed following the students' needs. The final score of validated the product was 3.70 from Expert 1 and 4.00 from Expert 2, which was $3.50 < \chi \leq 4.00$. The score indicates that the developed material was considered "Very Good" by the predicate.
