

## FOREWORD

Praise and gratitude to God Almighty who has given His mercy and grace, so that the author can complete his thesis well. The thesis with the title "Development Of E-Module Based On SETS (Science, Environment, Technology, Society) On Science Materials In Junior High School" was prepared to fulfill some of the requirements needed to achieve a Bachelor of Education degree in the Natural Science Education Study Program, Faculty of Mathematics and Natural Sciences (FMIPA), State University of Medan (Unimed).

The author realizes that the preparation of this thesis would not have been completed without support from various parties, both directly and indirectly. Through this opportunity, the author would like to express his thanks to all parties who have helped in preparing the thesis. I would like to express my deepest thanks to Mr. Prof. Dr. Ramlan Silaban, M.S as Thesis Supervisor, for his extraordinary guidance, motivation and direction so that all stages in preparing this thesis can be passed smoothly. Thanks also to Dr. Jamalum Purba, M.Si, Dr. techn. Marini Damanik, M.Si, and Aristo Hardinata, M.Pd as my Thesis Examining Lecturers who have provided good criticism and suggestions, motivation, and direction starting from the proposal seminar to the examination stage to defend the thesis, so that this thesis can be completed well. Thank you to Mr. Halim Simatupang, M.Pd, Prof. Dr. Retno Dwi Suyanti, M.Si, and Dr. Ely Djulia, M.Pd for his assistance in validating research instruments for the e-module being developed. Thank you to the lecturers and all staff in the Department of Biology and Science Education Study Program, Faculty of Mathematics and Natural Sciences at Medan State University for their assistance during the learning process. Thanks to Dr. Iis Siti Jahro, M, Si. as academic supervisor, Thank you to the bilingual coordinator Dr. Ely Djulia, M.Pd, and the bilingual staff who helped the author. The author also would like to thank the principal and deputy principal of SMP Negeri 35 Medan, Mrs. Titin Sumarni, S.Pd as a science teacher for accompanying the researcher and all science teachers who have helped the researcher during the research process at school.

Special and full of love to my beloved parents, Father Marolop Mahulae and Mother Lindawati Sinaga who always provide prayers, love, advice, support, and never-ending motivation. I apologize for my actions that disappointed you during the process of completing this thesis. Thank you to my beloved brother and sister Lois Nikel Mahulae, and Firda Lavenia Mahulae who always provide prayers, support, and motivation. Thank you to all the 2018 Bilingual Natural Science Education class friends, all UKMKP UNIMED friends, and all Mercy Sg spiritual friends for their prayers, support, and motivation. Thank you to sis Frida Claudia Sianipar, S.Pd, and sis Elisabeth May Dwi Wenty, S.Pd, as spiritual sisters who always provide prayers, help, support, and motivation to the author to remain enthusiastic about completing this thesis. Big thanks to beloved friends Shinta Sitinjak, Alenda Simbolon, and David Manuel Sihombing for their prayers, help, support, and motivation to the author during the process of working on his thesis.

The author would like to express his thanks, especially to himself for remaining strong and persevering so that he succeeded in completing this thesis well. Thank you for always thinking positively in various difficulties, continuing to work hard, and always trying to divide your time to complete your thesis and work, this is an achievement you should be proud of. You are great and you are strong, this achievement is not the end to stop trying but this is a stepping stone to achieve other extraordinary things.

The author realizes that this thesis still has shortcomings and limitations, however, while expecting constructive criticism and suggestions, the author hopes that this thesis can be useful for many parties, especially in perfecting the implementation of the 2023 curriculum in the classroom.
