ABSTRACT

MARISKA TIFANI. Community Perceptions of the Implementation of the Corporate Social Responsibility (CSR) Program at PT Dairi Prima Mineral in Bongkaras Village. Skripsi. Medan: Faculty of Education. Universitas Negeri Medan. 2024

This research aims to describe the community's perception of the implementation of the corporate social responsibility (CSR) program in Bongkaras village. This research conducted in Bongkaras Village, Silima Pungga-Pungga District, Dairi Regency. The type of research used is descriptive with a qualitative approach. The subjects in this research were 1 village official, 1 cadre accompanying the stunting program, and 2 villager. Data collection techniques are observation, interviews, and documentation. Data analysis techniques are data reduction, data presentation, and concluding. This research identifies 3 aspects of public perception of CSR programs, namely: (1) Cognitive aspect (2) Affection aspect (3) Conative aspect. The results of this research indicate that the public's perception is quite positive towards the CSR implementation. Even though the community agrees with the CSR program, the community does not actively participate in the CSR program carried out by PT Dairi Prima Mineral because low participation can also hinder the implementation of the CSR program.

Keywords: perception, society, corporate social responsibility (CSR), prima minerals.
