TANIA HUDBA SALSHABILA SITORUS. Pengaruh Layanan Konten Dengan Media Audio Visual Terhadap Peningkatan *Self Awareness* Remaja Tentang Bahaya Seks Pra-Nikah Kelas VII-1 di SMP Negeri 1 Air Batu. Skripsi. Medan: Fakultas Ilmu Pendidikan. Universitas Negeri Medan. 2024.

Penelitian ini bertujuan untuk menerapkan layanan konten dengan media audio visual dalam mengatasi *self awareness* terhadap bahaya seks pra-nikah pada siswa SMP Negeri 1 Air Batu. Jenis penelitian ini adalah penelitian kuantitatif dengan pendekatan *Pre- Experimental Design*. Subjek pada penelitian ini adalah 32 orang siswa SMP Negeri 1 Air Batu kelas 7 ⁻¹. Penelitian ini terdiri dari 2 kali pertemuan, hasil penelitian tersebut diketahui nilai rata-rata *pre-test* dan *post-test* *self awareness* terhadap bahaya seks pra-nikah siswa sebesar 81,03 dan setelah diberikan layanan meningkat drastis menjadi 109,41. Artinya rata-rata *self awareness* terhadap bahaya seks pra-nikah siswa mengalami peningkatan setelah diberikan layanan. Hasil analisis data yang diperoleh dalam penelitian ini adalah bahwa nilai $J_{hitung} = 190$ dengan $\alpha = 0,05$ dan $n = 32$ maka diperoleh nilai $J_{tabel} = 159$. Berdasarkan hasil uji *Wilcoxon* diperoleh diperoleh hasil bahwa $J_{hitung} > J_{tabel}$ dimana $190 > 159$, yang artinya hipotesis dalam penelitian ini diterima. Data *pre-test* (sebelum diberikan layanan) memperoleh skor rata-rata sebesar 81,03 dan skor total rata-rata *post-test* sebesar 109,41. Berdasarkan data diatas dapat disimpulkan bahwa, *self awareness* terhadap bahaya seks pra-nikah dari 32 orang siswa SMP Negeri 1 Air Batu yang sedang membutuhkan *self awareness* terhadap bahaya seks pra-nikah sebelum dilakukan layanan konten dengan media audio visual ditemukan rendah, setelah diberikan layanan konten dengan media audio visual keterampilan *self awareness* terhadap bahaya seks pra-nikah mereka bertambah.

Kata Kunci : Self Awareness, Bahaya Seks Pra-Nikah, Layanan Konten, Media Audio Visual.

ABSTRACT

TANIA HUDBA SALSHABILA SITORUS. The Influence Of Audio Visual Media Content Service On Increasing Adolescent Self-Awareness About The Dangers Of Pre-Marital Sex At SMP Negeri 1 Air Batu. Skripsi. Medan: Faculty of Education. Universitas Negeri Medan. 2024.

This research aims to implement content services with audio-visual media to overcome *self-awareness* of the dangers of premarital sex among students at SMP Negeri 1 Air Batu. This type of research is quantitative research with a Pre-Experimental Design approach. The subjects in this research were 32 students of SMP Negeri 1 Air Batu class 7 -1. This research consisted of 2 meetings, the results of the research showed that the average *pre-test* and *post-test* *self-awareness* score regarding the dangers of premarital sex for students was 81.03 and after being provided with services it increased drastically to 109.41. This means that on average students' *self-awareness* of the dangers of premarital sex increased after being provided with services. The results of data analysis obtained in this research are the value $J_{\text{Hitung}} = 190$ with $\alpha = 0.05$ and $n = 32$, so that the value $J_{\text{Tabel}} = 159$ is obtained. Based on the results of the Wilcoxon test, the result $J_{\text{Hitung}} > J_{\text{Tabel}}$ is obtained where $190 > 159$ which means the hypothesis in this study accepted. Pre-test data (before services were provided) obtained an average score of 81.03 and a total *post-test* average score of 109.41. Based on the data above, it can be concluded that the *self-awareness* of the dangers of premarital sex from 32 students of SMP Negeri 1 Air Batu who needed *self-awareness* of the dangers of premarital sex before the service content with audio-visual media was found to be low, after being provided with content services with audio-visual media their *self-awareness* skills regarding the dangers of premarital sex is increasing.
