ABSTRACT

CRISTINA ASVERA SARAGIH. The Role of Caregivers in Implementing Family Function for Foster Children at the SOS Children's Villages Medan Institute. Skripsi. Medan: Faculty of Education Universitas Negeri Medan, 2024

This study aims to analyze the role of caregivers in carrying out family functions at the SOS Children's Villages Medan Institution. This study uses a qualitative descriptive method. The subjects in this study were 7 people consisting of 1 manager of the SOS Children's Villages Medan Institution, and 6 caregivers. Data collection used interview, observation and documentation techniques. Data analysis techniques used data reduction, data presentation and drawing conclusions. Data validity used source triangulation and method triangulation. The results of the study showed that the application of family functions carried out by caregivers to foster children was based on the following functions: (1) religious function, (2) socio-cultural function, (3) function of love, (4) protection function, (5) reproductive function, (6) socialization and education function, (7) economic function, and (8) environmental development function. The role of caregivers in implementing family functions includes the role of parents, teacher, role models, educators, motivators, supervisors, advisors and managers.
