

ABSTRACT

Khairunisa Azzura, Registration Number 2193121009, Designing Media in Teaching Listening by Using Podcast of Narrative Text at SMA Negeri 13 Medan. A Thesis: English Education Program, Universitas Negeri Medan, 2024.

The objective of the study was to design teaching listening media of narrative text by using podcast. This study was carried out at SMA Negeri 13 Medan with the help of Research and Development (R&D) method, which contained six stages; gathering information and data, analyzing data, designing material, validating by the experts, revising material, and the last was final product. The subject of this study was 27 tenth-grade students at SMA Negeri 13 Medan. This study gathered data by observing existing media, interviewing the English teacher, and providing questionnaires to students to determine their needs. The study's conclusion led in the creation of efficient media that students and teachers may access outside and within the classroom, and which can be utilized as a teaching media for students to advance their listening abilities in narrative text. The product was validated by two experts in percentage terms; the average score of expert validations was 90%, indicating that it is very valid and could potentially applied in teaching narrative text listening.
