- 2) There were seven realization strategies of flouting maxims occurred by Prabowo and Gibran including giving too little information, irrelevant, banter, being obscure/ambiguous, giving too much information, sarcasm, metaphor. The highest realization by speaker was giving too little information with 4 data or 25%, while the least used strategies, each

representing only 6% with 1 data, were giving too much information, sarcasm, and metaphor.

- 3) The reasons of flouting maxims in Mata Najwa talk show by Prabowo and Gibran were to safe face, to satisfy the hearer, to build one's belief, and to hide the truth. The most dominant reasons for using flouting maxims by Prabowo and Gibran is to safe face with 6 data. Then, the lowest percentage of flouting maxim reason was to hide the truth with 2 data.

## 5.2 Suggestions

This study explored the concept of flouting conversational maxims. While the analysis revealed valuable insights, further research can broaden our understanding. To this end, this paper suggests three key avenues for future research and students.

- 1) Further research should be done by other researchers to discover more causes and insights of flouting maxims in other podcast videos and YouTube channels with another subject.
- 2) It is recommended that all students and readers look into more explanations and realisations of flouting maxims in the same context by adding more information to enhance the study of flouting maxims in the YouTube channel podcast.
- 3) In order to develop a good communication and prevent misunderstanding, it is advised that students carefully study and comprehend the conversational maxims and adhere to their guideline.
