The following is the formula used to determine and indicate the score that has been obtained from using the Virtual Writing Tutor tool.

1. Calculated the means score by apply following formula:

$$\bar{X} = \sum \frac{x}{n}$$

$\bar{X}$  = The mean score

$\sum x$  = The sum of all score

$N$  = The total number of students

(Gay, 1981: 331)

2. Calculated the percentage of enhancing students' skill in writing opinion essay by apply following formula:

$$P = \frac{X_2 - X_1}{X_1} \times 100\%$$

Notation:

$P$  : Percentage

$X_2$  : Average score of post-test

$X_1$  : Average score of pre-test

(Gay, 1981: 369)

### Zoo is good or not?

#### INTRO

Zoos have been a part of our society for a long time, providing educational and entertainment benefits for visitors. On the one hand, zoos can give visitors the opportunity to observe wildlife up close. On the other hand, there are also those who argue that zoos are an unethical form of animal breeding and should be banned. From my best knowledge, animals in this captivity rarely have access to the diversity of foods, climates, and environments they do in their natural habitats. Apart from that, the presence of zoos has also been linked to increased poaching in several regions of the world. Poachers can take advantage of the presence of zoos to target endangered species in their natural habitat, further reducing their numbers.

#### BODY

In the end, we cannot ignore the educational and entertainment benefits of zoos, but we also cannot ignore the incidence of keeping animals in captivity for human observation. For this reason, I believe it is necessary to weigh the pros and cons of zoos before drawing conclusions, and zoos should only be permitted if their operations strictly adhere to ethical standards. With proper oversight, perhaps we can create a world that allows wildlife conservation without compromising the welfare of animals in captivity.

#### FINAL

In conclusion, I believe we can gain education and entertainment from visiting zoos. Therefore, I believe that zoos should only be permitted if they adhere to strict regulations and standards to ensure the welfare of wild animals in captivity.

## Should Marijuana Be Legalized?

## INTRO

Marijuana has been a widely debated topic for many years, and the question of whether or not it should be legalized has become a major topic of discussion. Supporters of marijuana legalization claim that it can be used to help people suffering from certain medical conditions, while opponents argue that this could have devastating consequences for society if this were to be done without limitations.

## BODY

In my opinion, marijuana should be legalized for both medical and recreational purposes. Increasing scientific evidence shows the potential health benefits of marijuana, such as managing chronic pain or reducing the side effects of chemotherapy. Additionally, there is a lot of research showing that marijuana can be used as an alternative to more harmful substances such as alcohol or opioids. I also believe that marijuana has medicinal value, and therefore it must be legally accessible to those who need it. Prohibiting marijuana only forces users to seek out other sources which can often be more dangerous and unpredictable. Furthermore, criminalization also leads to an increase in marijuana-related arrests. The government should take a more progressive stance on the issue and legalize the substance.

## FINAL

Overall, I believe that legalizing marijuana would be beneficial for society as a whole. Not only would it provide medical relief for those suffering from certain ailments, but it could also free up valuable resources currently used to enforce marijuana laws. Marijuana should be treated no differently than other substances, such as alcohol or tobacco, and its use should not be criminalized any longer. It is time for society to accept the potential benefits of marijuana and legalize it once and for all.
