

## PREFACE

Praise and gratitude the author prayed to God for all His grace so that this thesis can be completed well. This thesis is entitled “The Effect of Using Student Worksheets with a STEM Approach on Vibrations, Waves, and Sounds Material On Learning Outcomes of Class VIII Students” was prepared to acquire Sarjana Pendidikan (S1) in the Natural Science Study Program, Faculty of Mathematics and Natural Science, Universitas Negeri Medan.

The author realized that it was very difficult for me to complete this thesis without the help and guidance of various parties from the lecture period to the process of preparing this thesis. Therefore, on this occasion, the author would like to say thanks to the chancellor of FMIPA of Universitas Negeri Medan, Mrs. Prof.Dr. Fauziah Harahap, M.Si. as dean of the FMIPA and staff, Mrs. Dr. Ely Djulia, M.Pd. as Bilingual Coordinator and staff.

The author would like to say thanks to Mr. Prof. Dr. Ramlan Silaban, M.S. as my thesis supervisor who has given guidance, advice, motivation, and suggestions to the author from the beginning until the completion of this thesis. The author also would like to thank Mrs. apt. Nora Susanti, S.Si., M.Sc. as my academic supervisor, who has guided, cared for, and supported the author during her education at Universitas Negeri Medan. The author also would like to thank Mrs. Dr. Mariati Purnama Simanjuntak, M.Pd. as my first examiner, Mr. Prf. Dr. rer. nat. Binari Manurung, M.Si. is my second examiner, and the third examiner Mrs.Dr. Ely Djulia, M.Pd., has provided many constructive suggestions for writing a better thesis.

The author also would like to thank Mrs. Prof. Dr. Retno Dwi Suyanti, M.Si. and Mr. Prof. Drs Togi Tampubolon, M.Si., Ph.D. as my validators. Mrs. Januari Sagala,S.Pd. as a teacher who provided, helped, and guided the author in conducting research at SMPN 3 Harian, and also to all students VIII SMPN 27 Medan as my research sample who gave the chance to do this research.

In particular, the author would like to express the deepest gratitude to the people whom the author loves especially to my father Mr. Bereston Sitinjak, my mother Mrs. Jenni Tampubolon S.Pd., and my two younger brothers Benyamin Jodi Sitinjak and William Niton Sitinjak, who always provide support in terms of material, motivation, advice and especially for prayer and love so that the author can complete study at Universitas Negeri Medan.

The author also thanks all Bilingual NSESP'18 classmate, all UKMKP UNIMED friends, and all Mercy SG spiritual friends for the love during the study and completion the thesis who has encouraged me, sharing knowledge and love with the author during my education at Universitas Negeri Medan. Thank you to sis Frisca Donna Purba, S.Pd., sis Frida Claudia Sianipar, S.Pd., and sis Elisabeth May Dwi Wenty, S.Pd., as spiritual sisters who always provide prayers, help, support, and motivation to author to remain enthusiastic about completing this thesis. Especially the author would like to best friends Lely Grasela Mahulae, S.Pd. and Alenda Simbolon, S.Pd. who always provided support, and motivation and became a support system for the author and always there for the author and gave unconditional love. All parties who have provided help, prayer, and support that the author simply can't name individually.

*Last but not least, I thank myself for overcoming every obstacle and difficulty that arose throughout this journey. In every moment of fatigue and doubt, I found the inner strength to keep going. I have proven that with hard work and strong will, I can achieve the goals I have set for myself.*

Finally, the author hopes that God will reward the kindness of all those who have helped. Hopefully, this thesis can be useful for readers and benefit the development of science.
