

## PREFACE

Praise the author thanks to God Almighty, for all His mercy and grace so that the author can complete this thesis well. This thesis is prepared to fulfil the requirements in obtaining a bachelor of education degree in the Chemistry Education study program, Faculty of Mathematics and Natural Science, Medan State University.

The preparation of this thesis has certainly gone through a long and tiring process. However, behind the process, the author realizes that the preparation of this thesis can be completed well because of the guidance and support from lecturers, parents, and friends of the author both directly and indirectly. In preparing this thesis, author received a lot of guidance, direction, support and motivation from various parties, may God Almighty reward all the kindness that has been given.

With profound humility and deepest gratitude, author wishes to express sincere gratitude to the following:

1. Lord Jesus Christ. In deepest reverence, the author offers boundless praise and thanks to the Lord Jesus Christ. Your magnificent and unwavering love has been the guiding light at every step of this journey. You are the Alpha and Omega, the beginning and the end of all things, encompassing every idea and word within this humble work. Your constant presence, the strength You provided in moments of weakness, and the wisdom You bestowed throughout this process are a testament to Your all-encompassing presence in the author's life. Without Your grace and blessings, this thesis would not have been possible. To You alone be all glory and praise, Lord Jesus.
2. My beloved parents, Mr. Bisman Sinambela and Mrs. Delima Nopryanti Marlina, for their tireless efforts in providing education, unwavering support, and encouragement in all the author's endeavours, enabling the author to achieve a Bachelor of Education degree. Deep appreciation is also extended to my dear younger sister, Shaishary Kasih Satya, for her constant motivation,

prayers, and enthusiasm throughout the author's studies at State University of Medan.

3. Mam Elfrida Ginting S.Si., M.Sc., Ph.D., the esteemed thesis supervisor, for her invaluable guidance, advice, and direction throughout the entire thesis process. Her support extended from the initial stage of determining the research topic, through the preparation and proposal seminar, the execution of the research, the meticulous preparation of the thesis, and culminating in its successful defences.
4. Sir Prof. Dr. Ramlan Silaban, M.S., Mam Susilawati Amdayani, S.Si., M.Pd., and Mam Dr. Techn. Marini Damanik, S.Si., M.Si., the respected examiners, for their insightful criticism and constructive suggestions, which significantly contributed to the improvement and refinement of this thesis.
