

## LIST OF TABLES

Tabel 2. 1 Problem Based Learning Model Steps.....	10
Tabel 2. 2 Problem Solving Ability Indicators .....	23
Tabel 3. 1 Table of Research Design (Two group pre test - post test).....	36
Tabel 3. 2 Interpretation criteria for the percentage of student survey response ..	37
Tabel 3. 3 Problem Solving Ability Test Grid .....	38
Tabel 3. 4 Guidelines for Scoring Problem Solving Ability Tests .....	39
Tabel 3. 5 Problem Solving Ability Level Criteria .....	40
Tabel 3. 6 Scoring classification based on percentage.....	40
Tabel 3. 7 Learning Activity Instrument Grid with Metacognitive Strategy.....	41
Tabel 3. 8 Table of Normalized Gain Criteria .....	48
Table 4. 1 Problem Solving Ability Pre Test Data .....	49
Table 4. 2 The Result of Normality Test of Physics Problem Solving Ability in Experiment Class and Control Class for Pre – Test.....	51
Table 4. 3 The Result of Homogeneity Test of Physics Problem Solving Ability in Experiment Class for Pre– Test .....	51
Table 4. 4 The Result of Hypothesis Test of Student’s Pre – Test Score in Experiment and Control Class .....	52
Table 4. 5 Problem Solving Ability Post Test Data .....	53
Table 4. 6 The Result of Normality Test of Student’s Physics Problem Solving Ability in Experiment Class and Control Class for Post – Test.....	55
Table 4. 7 The Result of Homogeneity Test of Student’s Physics Problem Solving Ability Score in Experiment and Control Class.....	55
Table 4. 8 The Result of Hypothesis Test of Student’s Post – Test Score in Experiment and Control Class .....	56
Table 4. 9 N – Gain Score of Experiment and Control Class .....	57
Table 4. 10 Results Of Observation Of The Learning Process By Researchers ...	57
Table 4. 11 Responses Students to Learning Activities .....	58
Table 4. 12 Average Qualification Level of Student Activity per-group .....	59
Table 4. 13 Average Percentage Of Observation Learning Journal.....	61
Table 4. 14 Presentation Of Responses In Metaconitive Question.....	62
