

## PREFACE

Praise and gratitude to Allah SWT, the Almighty God who has given His grace and gifts, so that the author can complete the thesis entitled Development of Interactive E-LKPD Based on Reading to Learn (R2L) Method to Improve Students' HOTS Science Literacy Ability on Chemical Equilibrium well. This thesis is compiled to fulfill some of the requirements needed to obtain a Bachelor of Education (S.Pd) degree in the Bilingual Chemistry Education study program, Faculty of Mathematics and Natural Sciences (FMIPA) State University of Medan.

The author realizes that the preparation of this thesis will not be completed without the support of various parties, both directly and indirectly. Through this opportunity, the author would like to express his gratitude to all parties who have helped in the preparation of the thesis. The greatest gratitude is conveyed to:

1. Mrs. Dr. Iis Siti Jahro, M.Si, as a thesis supervisor who really helps the writer in terms of providing guidance and suggestions to the writer from the beginning of determining the title until the completion of this thesis.
2. Mr. Ayi Darmana, M.Si, as the academic supervisor who has guided during lectures.
3. Mr. Prof. Asep Wahyu Nugraha, M.Si, Mrs. apt. Nora Susanti, S.Si., M.Sc and Mrs. Elfrida Ginting, S.Si., M.Sc., Ph.D as examiners who have provided input and suggestions for improvement starting from proposal seminar up to the thesis defending examination stage, so that this thesis can be completed properly.
4. Mrs. Marnida Yusfiani, M.Pd. and Mrs. Dwy Puspita Sari, M.Pd. as material expert validators who have provided a lot of input on the E-LKPD that the author uses.
5. Mrs. Mardiani Pane, S.Pd. and Mrs. Anitya Santri R Harahap S.Pd. as chemistry teachers who always provide direction and guidance to the author, as well as all teachers and students of MAN 1 Medan.
6. All lecturers and staff of the Department of Chemistry, FMIPA UNIMED, who have helped a lot in the lecture process.

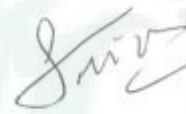

7. Mom and Alm. Dad who always give prayers, motivation, guidance, and extraordinary support to complete the writing of this thesis. And the author's younger brother Agung who always gives support.
8. Thank you to friends of CESP 2021 who have helped me while studying at UNIMED especially Silvia Gressiela Br Sembiring who has always shared her concerns during thesis writing and has provided a lot of support to writer.
9. Especially for Lorena Atania Br Purba who accompanied the author from a new student until the end and always supported, encouraged and listened to the author's complaints so that she would not give up easily in compiling this thesis from beginning to end. Providing positive enthusiasm and energy that greatly helped the author in completing this thesis.
10. To bang Arfito Nugroho who has supported and helped the author in completing this thesis from beginning to end, especially teaching and providing suggestions and input to the author in completing this thesis.
11. Friends from the Chemistry Students Association (HMJ), UKMI Ar-Rahman, friends from KKN Desa Bengkel especially Arti Yusriyyah who have become the best friends I have had during this lecture.
12. To the person whose name is not yet known but is clearly written in the *Lauhul Mahfuz*. Thank you for being one of the sources of motivation for the author to complete this thesis as an effort to improve herself. May we meet in our respective best versions.
13. The most special greeting to a very strong and tough woman who is sometimes unpredictable and stubborn, the author of this thesis is myself, Kurnia Wati Br Bangun. A child who sometimes feels like she is still small but is already 22 years old. Thank you for coming to this world and for struggling so far through many obstacles and challenges from this universe. You are a great figure who has struggled to give the best achievement for your life and those around you and always encourage and strengthen yourself to this point, even though sometimes disappointed because the expectations built by this little girl are not as expected, but always trying

and being grateful for the little things that are achieved. May Allah give you better choices and achievements for the future.

14. Thanks to all parties who cannot be mentioned one by one.

Therefore, the author expects constructive criticism and suggestions from all parties for the perfection of this thesis. The author hopes that this thesis can be useful in the future for related parties.

Medan, March 07<sup>th</sup>,2025

Kurnia Wati Br Bangun
