| <b>BAB I PENDAHULUAN .....</b>                                          | <b>1</b>    |
| 1.1 Latar Belakang.....                                                 | 1           |
| 1.2 Identifikasi Masalah.....                                           | 4           |
| 1.3 Ruang Lingkup .....                                                 | 4           |
| 1.4 Batasan Masalah .....                                               | 4           |
| 1.5 Rumusan Masalah.....                                                | 5           |
| 1.6 Tujuan Penelitian .....                                             | 5           |
| 1.7 Manfaat Penelitian .....                                            | 5           |
| <b>BAB II TINJAUAN PUSTAKA.....</b>                                     | <b>6</b>    |
| 2.1 Gelas Sebagai Media .....                                           | 6           |
| 2.2 Gelas Silika-Fosfat .....                                           | 6           |
| 2.3 Pasir Kuarsa (QS) .....                                             | 9           |
| 2.4 Ion Europium ( $\text{Eu}^{3+}$ ) .....                             | 12          |
| 2.5 Kalsium Oksida ( $\text{CaO}$ ) .....                               | 12          |
| 2.6 Barium Oksida ( $\text{BaO}$ ).....                                 | 13          |
| 2.7 Gadolinium Oksida ( $\text{Gd}_2\text{O}_3$ ).....                  | 14          |
| 2.8 Karakteristik Sampel .....                                          | 15          |
| 2.8.1 Karakterisasi menggunakan Abbe refractometer .....                | 15          |
| 2.8.2 Karakterisasi menggunakan FTIR (Fourier Transform Infrared) ..... | 15          |
| 2.8.3 Karakterisasi menggunakan XRD (X-Ray Diffraction).....            | 16          |

|                                                                        |           |
|------------------------------------------------------------------------|-----------|
| <b>BAB III METODE PENELITIAN.....</b>                                  | <b>17</b> |
| 3.1 Tempat dan Waktu Penelitian .....                                  | 17        |
| 3.2 Alat dan Bahan.....                                                | 17        |
| <b>3.2.1 Alat .....</b>                                                | <b>17</b> |
| <b>3.2.2 Bahan .....</b>                                               | <b>18</b> |
| 3.3 Prosedur Penelitian .....                                          | 18        |
| 3.4 Metode Melt-Quenching.....                                         | 19        |
| 3.5 Flowchart Penelitian .....                                         | 20        |
| 3.6 Jenis Sampel .....                                                 | 22        |
| 3.7 Proses Pendopongan Pasir Kuarsa .....                              | 25        |
| 3.8 Karakterisasi.....                                                 | 26        |
| <b>3.8.1 Abbe Refraktometer.....</b>                                   | <b>26</b> |
| <b>3.8.2 Infrared Spectroscopy Transformed by Fourier (FTIR) .....</b> | <b>27</b> |
| <b>3.8.3 X-Ray Diffraction (XRD).....</b>                              | <b>27</b> |
| 3.9 Kerapatan dan Volume Molar.....                                    | 28        |
| 3.10 Teknik Analisis Data.....                                         | 29        |
| <b>BAB IV HASIL DAN PEMBAHASAN .....</b>                               | <b>30</b> |
| 4.1 Tampilan Gelas $\text{Eu}^{3+}$ .....                              | 30        |
| 4.2 Sifat Fisis .....                                                  | 31        |
| 4.3 Sifat Struktur.....                                                | 33        |
| <b>4.3.1 X-Ray Diffraction (XRD).....</b>                              | <b>33</b> |
| <b>4.3.2 Infrared Spectroscopy Transformed by Fourier (FTIR) .....</b> | <b>38</b> |
| <b>BAB V KESIMPULAN DAN SARAN.....</b>                                 | <b>42</b> |
| 5.1 Kesimpulan.....                                                    | 42        |
| 5.2 Saran .....                                                        | 43        |
