

LIST OF TABLES

Table 2.1 STEM Compound.....	14
Table 2.2 Creative Thinking Indicators.....	16
Table 3. 1 STEM and Ethnoscience concepts in the Module.....	28
Table 3. 2 Explanation of creative thinking indicators in the module.....	29
Table 3. 3 Module draft content	29
Table 3. 11 Percentage Criteria for Appearance of Eligibility Sheet Indicators ..	47
Table 3. 12 Percentage Criteria for Appearance of Response Sheet Indicators...	47
Table 4. 1 Summary of material in modules based on Ethnoscience and STEM	54
Table 4. 2 Validity results of the integrated module of elements, compounds and mixtures with creative thinking by instrument experts	56
Table 4. 3 Comparison of the Module Before and After Revision in the Material Aspect.....	58
Table 4. 4 Validity results of the integrated module of elements, compounds and mixtures with creative thinking by material experts	60
Table 4. 5 Comparison of the Module Before and After Revision in The Learning Aspect.....	61
Table 4. 6 Validity results of the integrated module of elements, compounds and mixtures with creative thinking by learning experts	62
Table 4. 7 Comparison of the Module Before and After Revision in the Media Aspect.....	64
Table 4. 8 Validity results of the integrated module of elements, compounds and mixtures with creative thinking by media experts	65
Table 4. 9 Validity results of the integrated module of elements, compounds and mixtures with creative thinking by science teachers.....	66
Table 4. 10 Respont results of the integrated module of elements, compounds and mixtures with creative thinking by students.....	67
