ACKNOWLEDGEMENTS

Praise and gratitude are expressed to Allah Subhanahu wa Ta'ala, who has bestowed upon me His blessings and grace, enabling me to complete this thesis entitled **"The Development of Mathematics Learning Module Based on Project-Based Learning Using Augmented Reality to Improve Conceptual Understanding Ability"** with great success. I also send my *Shalawat* and blessings to Prophet Muhammad SAW, along with his family, companions, and followers. *Allahumma Sholli 'alaa sayyidina Muhammad wa 'alaa ali sayyidina Muhammad.*

This thesis is submitted to fulfill one of the requirements for obtaining a Bachelor's degree in the Mathematics Education program. The author would like to express heartfelt gratitude to all those who have assisted in the process of writing this thesis, enabling its successful completion. Special thanks are extended to the beloved father, Chandra Helmy, and the cherished mother, Nining Sri Wahyuni Lubis, who have consistently provided an abundance of love, prayers, support, encouragement, and invaluable sacrifices. The author also expresses gratitude to Nadia Maisa Alya and Khalisa Danish Ara, who have continuously motivated and provided space for the author to express concerns. Additionally, the author is thankful to Fatimah Azzahra, a sincere and loyal friend, whose unwavering support and kindness have been a source of strength throughout the entire academic journey.

The author would like to express sincere gratitude to Prof. Drs. Dian Armanto, M.Pd., M.A., M.Sc., Ph.D., the thesis advisor, for his time, patience, guidance, suggestions, and motivation, which have greatly contributed to the completion of this thesis. Special thanks are also extended to Sir Dr. E. Elvis Napitupulu, M.S., Sir Dr. KMS. Muhammad Amin Fauzi, M.Pd., and Ma'am Ade Andriani, S.Pd., M.Pd., the thesis examiners, for their valuable feedback and suggestions from the research planning stage to the thesis writing process. The author also appreciates Sir Mangarangtua Marianus Simanjorang, M.Pd., Ph.D., the academic advisor, for his exceptional support during the study and

for his encouragement to strive for greater academic excellence. The author is equally grateful to Prof. Dr. Ir. Baharuddin, S.T., M.Pd., the Rector of Universitas Negeri Medan, Dr. Ani Sutiani, M.Si., the Dean of the Faculty of Mathematics and Natural Sciences, UNIMED, Dr. Pardomuan Sitompul, S.Si., M.Si., the Head of the Department of Mathematics, and Lasker P. Sinaga, S.Si., M.Si., the Secretary of the Department of Mathematics, Faculty of Mathematics and Natural Sciences, UNIMED. The author also extends gratitude to Ibu Nurhasanah Siregar, S.Pd., M.Pd., the Head of the Mathematics Education Program, as well as to all faculty members who have shared their knowledge during the course of study, and to all staff members of the Department of Mathematics, FMIPA UNIMED, and the entire UNIMED community for providing the necessary facilities and support for the smooth progression of the academic journey.

The author extends heartfelt thanks to Sir Reza Faisal, S.Pd., M.PMat., as the Head of the School, the Vice Principal, the administrative staff, Ma'am Maulida Hafni, S.Pd., M.Pd., and Ma'am Yuni Hartati Harahap, S.Pd., the Mathematics teachers, as well as the students of class X-12 at MAN 1 Medan, for their guidance and support during the research process.

The author expresses sincere thanks to the friends who have greatly assisted in completing this thesis, providing encouragement and support: Nurul Aisyah, Khairunnisa Amril, Hilmia Rahma, Aura Albizia Tanjung, Aisyah Fania, space Olga Rosalinda, and M. Fajar Alif also heartfelt thanks to the three kind-hearted seniors who provided valuable and time for discussion regarding this thesis: Rahmadina, S.Pd., Kartika Adila, S.Pd., and Fitria Humairah S.Pd., May Allah ease every step of your journey. The author is also grateful to the extended family of MESP 2021, who have journeyed together through academic life and remained united through both joy and hardship, particularly Khosyi, Fadlin, Rotua, Indri, and Josua.

The author has made every effort to complete this thesis to the best of their ability; however, the author acknowledges that there are still many weaknesses and shortcomings in terms of content and language. Therefore, the author welcomes constructive feedback and suggestions from the readers for

the improvement of this thesis. It is hoped that this thesis will contribute to enriching the field of education.
