

ACKNOWLEDGMENT

Alhamdulillahirobbil'alamin, praise and thank to Allah SWT for all blessings that this thesis finished well. This thesis entitled "Enhancing Student's Mathematical Communication Ability Using Auditory, Intellectually, and Repetition Model in Eighth Grade SMP Negeri 2 Panai Tengah Academic Year 2015/2016". This thesis is compiled to fulfill a partial requirement to achieve a degree of Sarjana Pendidikan of Mathematics from Faculty of Mathematics and Natural Sciences at State University of Medan.

A bulk of thanks submitted to Dr. Izwita Dewi, M.Pd as my supervisor for guidance, instruction and all positive recommendation from the beginning to the finishing of this thesis. Special thanks go to Prof. Dr. Edi Syahputra, M.Pd; Prof. Dr. Pargaulan Siagian, M.Pd and Dr. Edy Surya, M.Si as examiners who give suggestions and recommendations to the writing of this research. Thanks to Rector of State University of Medan, Prof. Dr. Syawal Gultom, M.Pd as well to his colleagues; Dr. Asrin Lubis, M.Pd, the former leader of Faculty of Mathematics and Natural Sciences as well to his colleagues; Dr. Edy Surya, M.Si, Head of Mathematics major; Drs. Zul Amry, M.Si, Ph.D, Head of Mathematics Education Study Program; Drs. Yasifati Hia, M.Si, the Secretary of Mathematics major. Thanks also to Mulyono, M.Si, Academic Supervisor and all teachers in State University of Medan as well to all staff of administration who give attentions and helps.

Special thanks also go to Drs. Indera Yuda Sungkowo, the Principal of SMP Negeri 2 Panai Tengah; Evi Yanti Lubis, S.Pd, Mathematics Teacher in SMP Negeri 2 Panai Tengah, all teachers and also staff of administration in SMP Negeri 2 Panai Tengah for respect and care to the guidance while researching.

Infinitely special thanks to my lovely father and mother, Drs Indera Yuda Sungkowo and Lilik Latifah, to motivate and pray for me, as well to my beloved sister, Lendra Citra Defitri, who also supports and motivates me.

Necessary thanks for my friends in Mathematics major 2011, especially for my Bilingual Mathematics Education, Fahrozy Andinur Pradana (Ozy);

Yohannes (Jo), Ronny, Asifa, Elvi, Tika Mindari (Mbak Tika), Mawaddah, Leni, Dwi Maulida Sari, Sapta Novita Nasution, Rizky Nurul Hafni (Aci), Widi (Komting), Debby, Nelly, Ana, Verawati, Tari, Kristin, Samantha, Yernni, Natalita, Dewi Bakara and Evan D. K. Simarmata; my PPL-mates in SMA Plus Matauli Pandan (Lina, Amel, Timeh, Dyah, Dini, Yohana, Emung, Kristin, Evina, Pocan, Topa, Intan, Ummy), and students in SMA Plus Matauli Pandan (Zul, Candra, Noval, etc.); as well to my seniors and underwritten friends who support, motivate and give the researcher positive suggestions.

This thesis has been written as super as possible, however there are still conscious weaknesses and limit-nesses in content and grammars. Positive suggestion and critics from readers are needed to more perfect thesis. May this thesis useful and enrich knowledge.

Medan, June , 2016
