

## PREFACE

First and foremost, all praise be to God, the Almighty for His blessing and guidance for giving inspiration, health, knowledge, and the strength to see that this skripsi becomes a reality.

This skripsi, *“The Collaboration between Discovery based Learning and Problem based Learning Model that Using Macromedia Flash to Student’s Achievement and Motivation in Electrolyte and Non Electrolyte Solution Topic”* has been arranged to obtain the degree of Sarjana Pendidikan in Department of Chemistry, Faculty of Mathematics and Natural Sciences (FMIPA), State University of Medan (UNIMED).

Author would like to express gratitude to all who have helped in one way or another in the planning, brainstorming, writing, and editing of this skripsi. In this opportunity, the author would like to express the great appreciation to Dr. Iis Siti Jahro, as the thesis supervisor and also as a coordinator of bilingual program, Prof. Dr. Retno Dwi Suyanti, M.Si, Dr. Ajat Sudrajat, M.Si, and also Dr. Marham Sitorus, M.Si as the thesis examiners and also to Prof. Drs. Manihar Situmorang, M.Sc., Ph.D., as the author’s academic supervisor, for their valuable time spent in giving guidances, advices, motivations, comments and suggestions during the process of finishing this skripsi. The author also says thanks to Dr. Asrin Lubis, M.Pd, as the dean Faculty of Mathematics and Natural Sciences, State University of Medan, then Nora Susanty, S.Si, Apt., M.Sc, as the secretary of Bilingual Program. Thanks to Sir Syamsuddin as bilingual staff for his helping in administrative assistance and kindness. And also to the head master of SMAN 1 Sidikalang namely Drs. Alben Sianturi for helping.

The author’s gratitude also to all of students to my mini research students in SMAN 1 Matauli Pandan, the student in second year grade X of SMAN 1 Sidikalang who have rendered their time to be the subjects of the learning process and observation, and support to finishing this research.

The deepest and special gratitude, appreciation and love to my wonderful parents daddy S.Boangmanalu and mommy Ida Sherliani Purba for their countless love, supports, prays, motivation and careness and also to my beloved siblings, Febiola Boangmanalu and Rain Kihara Boangmanalu for supports.

Sincerely a sweet utterance give to my very lovable persons Esra Sitanggang, Taruli Lumbantobing, Elisa Lumbantobing, and Febryanty Silitonga for every time that spent, every warm hug, for everything.

Special thanks also goes to my friends Ernita, Fany, Evi, Novel, and all CESP students Arif, Biuti, Descey, Elvi, Fridayuni, Haryati, Ivana, Lestari, Lisna, Marianna, Meliana, Nova, Nursaadah, Rimbun, Rina, Rolina, Seruni, Suditro, Wita, Taufik, that have accompany me during the research. Regards also sent to my Boanerges SG, Eklesia SG, Sulung SG, UP FMIPA 2016 coordination, PPLT Matauli Sibolga 2015, Kosopers member, and everyone who cannot be mentioned his/her name for their support and friendship during my academic years.

Finally, the author hopes this skripsi would be useful for everyone who like to explore more about the learning model and media to learn electrolyte and non electrolyte solution topic notably and chemistry generally. May God bless us.

Medan, June 2016

The author,

Lady Ofina Boangmanalu
