

ACKNOWLEDGEMENT

The first and foremost, the greatest thanks to the Almighty God Allah SWT for his grace and merciful in helping the writer to finish the thesis completely.

The thesis entitled The Implementation of Guide and Free Inquiry Learning Model to Improve Student's Learning Outcomes in Senior High School on Learning Acid-Base Titration, was completely arranged as the requirement to get the Degree of Sarjana Pendidikan in Faculty of Mathematics and Natural Science in State University of Medan.

In this opportunity, I would like to give my gratitude to Dr. Iis Siti Jahro, M.Si as my thesis supervisor that give me so many suggestions and advices to arrange and finish this thesis. My gratitude also to the late Prof. Dr. Albinus Silalahi, M.S, Dr. Simson Tarigan, M.Pd, Drs. Jasmidi, M.Si, as my examiner and to Dra. Ani Sutiani, M.Si as my academic supervisor. Also my gratitude to Dr. Retno Dwi Suyanti, M.Si as the validator for research instrument and validator for character observation sheet. For all their comment, correction and suggestion in order to make this thesis completely arranged.

Then, I would like to thank to Dr. Asrin Lubis, M.Pd, as the Dean of Faculty of Mathematic and Natural Science, Dr. Iis Siti Jahro, M.Si as the Coordinator of Bilingual Program, to Nora Susanti, S.Si, Apt., M.Sc, as the Secretary of Bilingual Program, to Agus Kembaren, S.Si., M.Si, as the Head of Chemistry Department, and the all staff of chemistry department. And also to Sir Syamsudin or usually called as "Pak Sam" as Bilingual staff. My thankful also to Tukiani, S.Pd, as the Headmaster of SMA Swasta Harapan Bangsa where the writer done the research process and to Rudianto Manik, S.S, as the Headmaster of SMA Swasta YAPIM Medan, where the writer done the instrument validation process. And those all for the administrative requirement in the research.

My special gratitude to my beloved parents, Kapten Cpl Legino and Cikya Misnuti, M.Si, to my beloved brothers, Romodhona Nuryadi, S.T and Ridhoni Gusti Ilahi and to my beloved sister, Citra Tri Oktaviani, S.Pd, and to all my

Family Members from my father's family or my mother's family for their pray and motivation given to me during the writing process of this thesis. Thanks to Yasir Arafat Hutapea, S.Pd, for help me and give the suggestion during the beginning to the end of my course in the college. Thanks to Syahriza Ayu Ramadhani, S.Pd, for help me until the research process was done in the school. Thanks to my solid partners in the class, Rolina and Fridayuni, for being more than a best friend in helping me through my daily activity inside campus and also for my all lovely members of Chemistry Education Study Program 2012, for what we had through together during the four years. For my friends in Field Experience Program in SMAN 1 Tebing Tinggi, because this field experience had inspired me to arrange the background of this research. And the last, thanks to Wita Loka Rizki, for accompany me when do the validation instrument test in the school.

I have already done this thesis with my best, but still needed the suggestion from the reader in order to make it better. I hope this thesis can be useful and giving contribution to the reader and especially in education.
