

ACKNOWLEDGEMENT

The greatest thankfulness is given to Almighty God, Jesus Christ, and Mother Mary, who always give blessing and provide health, wisdom, strength, spirit, knowledge and materials for the writer in composing this thesis accordance with the planned time.

The title of thesis is “The Differences of Students’ Learning Outcomes and Students’ Characters through Implementation of Cooperative Learning Model Types in Solubility and Solubility Product Topic” that arranged to obtain the degree of Sarjana Pendidikan in Chemistry Department, Faculty of Mathematics and Natural Sciences, State University of Medan (Unimed).

In this opportunity, the writer would like to express thanks and great appreciation to the Dr. Ajat Sudrajat, M.Si as my thesis supervisor for his valuable time spent in giving guidance, advices, motivations and suggestions during completing this thesis. The writer also thanks to Prof. Drs. Manihar Situmorang, M.Sc., Ph.D., Dra. Ani Sutiani, M.Si., and Dr. Murniaty Simorangkir, M. S., as the reviewer counselor for this thesis that giving me advices, suggestions, guidance and constructive comments for this thesis’ completeness.

The writer also says thanks to Dr. Asrin Lubis, M.Pd., as the Dean of Mathematics and Natural Sciences Faculty, State University of Medan, Dr. Iis Siti Jahro, M.Si., as the Coordinator of Bilingual Program, Mrs.Nora Susanti, S.Si, Apt., M.Sc., as the Secretary of Bilingual Program, Agus Kembaren, S.Si., M.Si as the head of chemistry department, Mr. Syamsudin and Mr. Iqbal as the administrator of Bilingual Office for their advices and other necessary administrative business. The great thanks are also given to Drs. Eddyanto, Ph.D., as my academic supervisor for his guidance during my academic process in this University. The writer also says thanks to Prof.Dr. Retno Dwi Suyanti, M.Si as the instrument’s validator in this research.

The author appreciation also given to Principal of SMA Negeri 1 Tebing Tinggi, Drs. Sariono, for the chemistry teacher, Mrs. Jenny Pasaribu, S.Pd; Principal of SMA Negeri 1 Sidikalang, Drs. Alben Sianturi, for the chemistry

teacher, Mr. S. Sihombing, S.Pd; and Principal of SMA Negeri 1 Berastagi, Alberto Colia, M.Pd., for the chemistry teacher, Mrs. Mariani Barus, S.Pd.

A deepest love, appreciation and thanks also go to my beloved parents, Mr. Kiris Simbolon and Mrs. Sormada Sinaga for their love, motivations, prays, and financial support to me during my university lecture process, also for my family, my sisters and brothers of cousins for their fighting and prays.

Special thanks are given to all my classmates in Bilingual Chemistry Education 2012 that always give me the best memory in my education process. For my sisters and brother of CESP 2013. Special thanks also for my PPL Team in SMAN 2 Balige; Ruben, Arny, Corry, Carol, Rani, Bella, Arif, Ivana, Marianna, Rohani, and Jerry for the love, motivations, supports, and spending time together. For all my students at SMAN 2 Balige especially, Elescour, Aselcif, Alkana, Qafoess, and Nommensen. Thanks for being my strengths. Thanks for my students at SMAN 1 Tebing Tinggi, SMAN 1 Sidikalang, and SMAN 1 Berastagi as my researches' students and schools. The writer also would like to say thanks to my childhood friend as sister, Borisma Anastasia Sinaga, my best friend from Junior High School until now Novi Serliana and everyone in my life that can't be mentioned one by one for your support and helping in my thesis process.

Finally, writer hopes this thesis can be used for those who would like to explore more about learning model in solubility and solubility product topic. The writer realizes that this thesis is still far from being perfect. Therefore, critiques and suggestions are needed for future improvement of this thesis.

Medan, June 2016
The Writer,

Descey Natalia Simbolon
