

CHAPTER V

CONCLUSION AND SUGGESTION

5.1. Conclusion

Based on the gotten result of research from data analysis and test of hypothesis then it can be concluded that:

1. There is difference of student's mathematical communication ability through remedial teaching of peer tutoring using mind mapping and student's mathematical communication ability through conventional remedial teaching

5.2. Suggestion

Based on the result and conclusion in this research then researcher has some suggestions, namely:

1. It is better if doing research of remedial teaching of peer tutoring using mind mapping in more long time therefore student's difficulties will be managed better.
